BROTHERS FACE MURDER CHARGE

Frankfort To Hold Special School Election

The Frankfort school board in district 157 has found the present educational fund inadequate to meet the salaries of teachers and janitor for the ensuing year and not being able to get enough tax revenue under the present assessed valuation of the district, and consequently the board is calling a special election for Saturday, September 30 at the school house in Frankfort from 4 to 9 p. m. for the purpose of voting on the proposition whether the tax rate for educational purposes in District 157, be increased from one per cent to one and one half per cent per \$100 assessed valuation.

The increase in taxes will be very small, but will mean much to keep the school from going into the red.

WARNING!

It has come to the attention of the local school authorities of Mokena, the second time that the flag ropes at the school have been tampered with. Should this happen again the guilty parties who are known, will be prosecuted to the full extent of the law. Why need any one be reminded in this day and age to have proper respect for the flag.

By dropping two games the Robins fell into a tie with the V Eights for third place. Wes Cappel and Willard Marti paced the Banker attack to take two games from the Paperhangers. Wes had a 529 series and Willard a game of 203.

Charlie Burkhardt still wants to know how Hamilton made out with his new ball in the first game. Ary how it was a good golf score. Looks like Ham will have to train that ball a little more. By the way have you noticed how Andy Bueschel is hitting those pins. Looks like he will be topping the league all season.

We could mail only to addresses appearing in the binder. Read your card carefully and if it is incorrect, mail it to the County Clerks' office with full corrections.

THE OLD JUDGE SAYS...

"Yes, I'm afraid there's no denyin' it, Judge... jeeps and trucks and other kinds of motorized equipment have taken the place of the good old horse in modern warfare."

"It's true of lots of things in this war, Eben. Every day we hear of new tactics and requirements and new uses of products. For instance, take the alcohol that is used for war purposes. In World War 1, this vitally needed product was used mostly in making smokeless powder, chemical warfare materials and medical supplies. Today it must do

far more... it must provide the base for such indispensable products as synthetic rubber, shatterproof glass, lacquers, plastics and many other of our requirements so essential to victory.

"As a result hundreds of millions of gallons are required every year... half of which is being produced by the beverage distilling industry. Bet you didn't know that, Eben."

"As a matter of fact, I didn't, Judge. That's a mighty important war contribution that had escaped me completely."

Hello Bill:

Just a few lines to let you know that I'm OK and that I'm receiving your most welcome paper regular. As we don't get many papers to read I sure enjoy reading all the home town news.

The only thing I can tell you is that I'm in the South Pacific and that it rains every day, also its never less than 100 degrees day and night the seasons are all the same winter and summer.

I have only had my feet on land three times since I have left the States. We are close to a large island but there isn't much left on the island. We have a show about every night and Bob Hope was here about a week ago.

I will close now thanks again Bill.

Yours,
